

## ERRATA – Test Questions

9/18/09

It has come to our attention that there are a few issues with our question database of over 1200 questions. All issues have been addressed for future printing of the “Achieve PMP® Exam Success” books, however those who have purchased our book and CD in 2009 may experience the following:

### Issues within the CD Rom of Practice Exams:

Approximately 15 questions in the CD Rom still reference the PMBOK® Guide 2004. Although the reference is incorrect, the answer is correct.

Three questions in the CD Rom still referenced processes that are no longer in the PMBOK® Guide 2008.

Four questions have been identified with wrong answers. (Two of which are also issues in the book)

### Issues within the actual TEXT of the Achieve PMP® Exam Success book:

Page	Question	Current Answer	Corrected Answer
7-18	#9	B	A
11-20	#2	B	C

If you experience or find any questions in our data base that require explanation, please contact us at [info@cpconcepts.net](mailto:info@cpconcepts.net).
